SERVING FAMILIES BEFORE THEY START IN AISD!

FAP is excited to share that the AISD ParentChild+ Home Visiting Program officially launched during the 21-22 school year. Along with the AISD Early Learning Department, responsive and engaging quality early education was delivered to our youngest learners and their parents.

The AISD ParentChild+ Home Visiting Program promotes and supports early literacy and fosters positive parent-child interactions. Through virtual visits, the Early Learning Specialist Home Visitors provided families with creative and fun ways to play and learn with their children to increase the parent's knowledge and their children's school readiness. Through these interactions, long-lasting and trusting relationships with families in our communities were established and cultivated.

READING SUPPORT FOR STUDENTS

We are proud of the McBee Parent Champions! They have done an earnest and consistent job supporting Kindergarten students in reading. They began by working with phonemic awareness. As the students progress, the Parent Champions celebrate and focus on other areas of reading. Parents have been working hard on this responsibility, and it has been rewarding to see them gain more experience as they help students advance their reading goals!

PARENT CHAMPIONS SUPPORT OUR SCHOOL

Parents Champions and the P.T.A collaborate in activities at our school. They helped to ensure that McBee students received a gift during the holiday season. In addition, this team of active parents has supported many events on our campus, such as Cinco de Mayo, the McBee Carnival, and the graduation event for kindergarten and fifth grade. Our Parents Champions are very valuable and have a fundamental objective of creating activities to encourage other parents to become involved at our school.

THANK YOU PARENT CHAMPIONS

Persistence is one of the values of Parent Champion and parents at Padron Elementary. Their collaboration in different school events has been essential as we continue to establish normality for our school community and children.

Thank you, Parent Champions, for always giving your valuable time to support and stepping up to help in the areas of need!

E-PROMOTORA

From the pandemic to the extreme climate changes, the conviction of mothers and families to learn every day became stronger. This resulted in another generation of ePromotora graduates. The support of the Parent Champions to maintain consistent communication between the group was essential. The emotional graduation was illuminated by the pride that was seen in their children seeing their mothers graduate and set an example of what they can achieve.

ePROMOTORA

ePromotora has been a great success at our School. Danitza Verdugo does a great job teaching parents and motivating them to become more involved in their children's education. Learning the six essential literacy skills: vocabulary, print motivation, print awareness, narrative skills, letter knowledge, and phonological and pre-math skill, have made a big impact in understanding each student is different in their learning process and personality, but with their parents help, they all can succeed at School.

- Hilda Hernandez

NEURO SEQUENTIAL MODEL OF EDUCATION (NME)

Fabiola Ramirez, Walnut Creek SEL Parent Champion, has worked hard with Becky Murillo, our Austin ISD Mental Health Professional, Zizi Ellison, and Jenifer Caban (UT Interim Students).

They partnered to offer four series of lessons on how to Reason, Relate and Regulate our emotions, which was a total success. In this space, parents shared their struggles and learned practices and activities to take home and support their students.

Are not so easy to find.

Is a quality all too rare.
Yet you give of your time and talents,
For all in need to share.

PROJECT SHOWCASE

After attending the Healthy Families Healthy Children event offered by FAP, parents returned to school excited to share their experience and what they had learned with others. With the help of the PSS, parents organized and replicated the " Making Art to Ease the Mind" workshop they participated in.

The workshop was a great success. Parents enjoyed it and engaged so much that they did not want to leave! We are now planning more workshops to continue engaging parents in mindfulness practices.

- Analleli Lopez

This year we had a need to utilize outdoor spaces. Parent Champions help beautify the front of our school by painting the picnic tables the school received. They also spent time doing a butterfly garden for students to enjoy.

These activities have strengthened the relationship with the parents and the spaces make our school welcoming for families. We are proud of the parent's leadership doing the projects and we all learned so much going through the process.

One of the programs that touched my heart was ePromotora. We had caregivers, newcomers from various countries, and the program taught them about the educational system and how to build a solid academic foundation for their children.

There was a mother of 4 students, three of them in life skills classes. After attending the first class, she was very motivated. To see her graduating and the sacrifice she made to complete the program brought tears to my eyes and inspired all the other graduates.

Thank you, Families, As Partners, for having that kind of impact on our families!
